[Docket No. FAA-2016-8827; Airspace Docket No. 16-ASW-12]

Amendment of Amendment of Class D and E Airspace for the following Texas Towns;

Georgetown, TX; Corpus Christi, TX; Dallas/Fort Worth, TX; Gainesville, TX;

Graford, TX; Hebbronville, TX; and Jasper, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class D airspace at Georgetown Municipal Airport, Georgetown, TX, and Class E airspace extending upward from 700 feet above the surface at Rockport Aransas County Airport, Corpus Christi, TX; Lancaster Airport, Dallas/Fort Worth, TX; Gainesville Municipal Airport, Gainesville, TX; Georgetown Municipal Airport, Georgetown, TX; (Hebbronville, TX) O.S. Wyatt Airport, Realitos, TX; and Jasper County-Bell Field, Jasper, TX. Decommissioning of non-directional radio beacons (NDB), cancellation of NDB approaches, and implementation of area navigation (RNAV) procedures have made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations at the above airports. This action also updates the geographic coordinates for Corpus Christi International Airport; the Corpus Christi VORTAC; Aransas County Airport, Rockport, TX; Nueces County Airport, Robstown, TX; Dallas/Fort Worth International Airport, Dallas/Fort Worth, TX; McKinney National Airport, McKinney, TX; Lancaster Airport; Bourland Field Airport, Fort Worth, TX; Jasper County-Bell Field; and

Alfred C. ‘Bubba’ Thomas (formerly San Patricio County Airport), Sinton, TX, to coincide with the FAA’s aeronautical database. Also, the names of McCampbell-Porter Airport (formerly T.P. McCampbell Airport); McKinney National Airport (formerly Collin County Regional Airport); Ralph M. Hall/Rockwall Municipal Airport (formerly Rockwall Municipal Airport); and Alfred C. ‘Bubba’ Thomas (formerly San Patricio County Airport) are being updated to coincide with the FAA’s aeronautical database.

DATES: Effective 0901 UTC, March 2, 2017. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies Class D airspace at Georgetown Municipal Airport, Georgetown, TX; and modifies Class E airspace extending upward from 700 feet above the surface at Rockport Aransas County Airport, Corpus Christi, TX; Lancaster Airport, Dallas/Fort Worth, TX; Gainesville Municipal Airport, Gainesville, TX; Georgetown Municipal Airport, Georgetown, TX; O.S. Wyatt Airport, Realitos, TX; Jasper County-Bell Field, Jasper, TX.

History

On September 8, 2016, the FAA published in the FEDERAL REGISTER a notice of proposed rulemaking (NPRM), (81 FR 62041) Docket No. FAA-2016-8827, to modify Class D airspace at Georgetown Municipal Airport, Georgetown, TX; and Class E airspace extending upward from 700 feet above the surface at Rockport Aransas County Airport, Corpus Christi, TX; Lancaster Airport, Dallas/Fort Worth, TX; Gainesville Municipal Airport, Gainesville, TX; Georgetown Municipal Airport, Georgetown, TX; O.S. Wyatt Airport, Realitos, TX; Jasper County-Bell Field, Jasper, TX,.

Subsequent to publication, the FAA discovered that the geographic coordinates for

and name of San Patricio County Airport, Sinton, TX, were updated to Alfred C. ‘Bubba’ Thomas Airport, Sinton, TX. Also updated subsequent to publication were the geographic coordinates for Corpus Christi International Airport, Corpus Christi, TX. These have been updated in this action to coincide with the FAA’s aeronautical database.

Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class D and E airspace designations are published in paragraph 5000, 6002, 6003, and 6005, respectively, of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 modifies:

Class D airspace within a 4.1-mile radius (reduced from a 5-mile radius) of Georgetown Municipal Airport, Georgetown, TX;

Class E airspace extending upward from 700 feet above the surface at Corpus Christi, TX;
Within a 6.6-mile radius (reduced from a 7.6-mile radius) of Aransas County Airport,

Rockport, TX, with extensions to the north of the airport from the 6.6-mile radius to 10 miles, to the southeast of the airport from the 6.6-mile radius to 10 miles, to the south of the airport from the 6.6-mile radius to 10 miles, and to the northwest of the airport from the 6.6-mile radius to 10 miles, and updating the geographic coordinates of Corpus Christi International Airport (also located in Class E extension airspace), Nueces County Airport, Robstown, TX, and the name of McCampbell-Porter Airport (formerly T.P. McCampbell Airport) to coincide with the FAA's aeronautical database. The geographic coordinates for the Corpus Christi VORTAC, and the geographic coordinates and name of Alfred C. 'Bubba' Thomas (formerly San Patricio County Airport), listed for Sinton, TX, are also updated to coincide with the FAA's aeronautical database.

Class E airspace extending upward from 700 feet above the surface at Dallas/Fort Worth, TX;

Within a 6.6-mile radius (increased from a 6.5-mile radius) of the Lancaster Airport, Lancaster, TX, with an extension southeast of the airport from the 6.6-mile radius to 9.2 miles and updating the geographic coordinates of the airport;

By updating the geographic coordinates of Dallas/Fort Worth International Airport, McKinney National Airport, and Bourland Field Airport, and the names of McKinney National Airport (formerly Collin County Regional Airport) and Ralph M. Hall/Rockwall Municipal Airport (formerly Rockwall Municipal Airport) to coincide with the FAA's aeronautical database;

By removing the 10.4-mile segment extending from the 6.6-mile radius of Gainesville Municipal Airport, Gainesville, TX;

Within a 6.6-mile radius (increased from a 6.5-mile radius) of Georgetown Municipal

Airport, Georgetown, TX, with extensions to the northwest of the airport from the 6.6-mile radius to 9.8 miles, and to the north of the airport from the 6.6-mile radius to 10.4 miles.

Class E airspace extending upward from 700 feet above the surface at Hebbronville, TX;

Within a 6.5-mile radius (reduced from a 6.9-mile radius) of O.S. Wyatt Airport, Realitos, TX;

And within a 6.6-mile radius (increased from a 6.5-mile radius) of Jasper County-Bell Field, Jasper, TX, with an extension to the north of the airport from the 6.6-mile radius to 6.7 miles, and updating the geographic coordinates of the airport to coincide with the FAA's aeronautical database.

Airspace reconfiguration is necessary due to the decommissioning of NDBs, cancellation of NDB approaches, and implementation of RNAV procedures at these airports for the safety and management of the standard instrument approach procedures for IFR operations at the airports.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the

criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5-6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
